In order to respond to the Open and Distance Learning Act of 2014, which expands and further democratize access to quality tertiary education through the promotion and application of open learning as a philosophy of access to educational services, and the use of distance education as an appropriate, efficient and effective system of delivering quality higher and technical educational services in the country; the Asian Institute for Distance Education finally signed a Memorandum of Agreement with NEO Cypher Learning Philippines (See page 2)

“In order to create an engaging learning experience, the role of instructor is optional, but the role of learner is essential.”

- Bernard Bull

"Online learning is not the next big thing, it is the now big thing."

- Donna J. Abernathy

AIDE inks partnership... from page 1 through Experts Academy.

The NEO Cypher Learning Management System (LMS) is the e-learning platform chosen by the AIDE executives because of its user-friendly features that are beneficial to the students, administrators as well as content designers and module writers. Neo Cypher Learning was founded by Graham Glass, an Educator at Texas University, Computer Science Department. He is also an author of the following: Unix, Linux and Web Services books and patents. The NEO Cypher Learning Management Systems are known for their beautiful user interfaces, comprehensive set of features, pricing that provides great value for money, and professional support staff.

Graham Glass, Founder NEO

He is also an author of the following: Unix, Linux and Web Services books and patents. The NEO Cypher Learning Management Systems are known for their beautiful user interfaces, comprehensive set of features, pricing that provides great value for money, and professional support staff.

NEO is an LMS for schools and universities that provides a refreshingly new way to teach and learn. NEO is a complete learning solution that boosts student engagement and makes teaching easier. NEO offers a centralized environment for creating classes, organizing learning material, assigning and submitting homework, taking assessments, collaborating with classmates, and analyzing results.

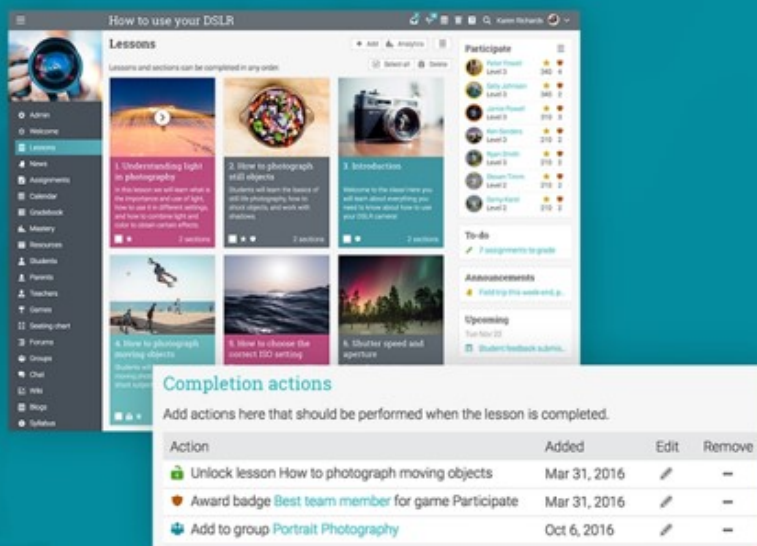

NEO CYPHER LEARNING BENEFITS TO STUDENTS

What even made AIDE convinced in getting the services of NEO as a provider of its LMS are the features and benefits that the system provides to students, which are in the form of the following:

1. More engaging multimedia courses delivered by teachers;
2. Access to course information lessons, assignments, grades);
3. Individual feedback from teachers (gradebook, messaging) **See page 3**

Teach

- Create rich, engaging classes with our built-in content authoring tool
- Save time on teaching activities
- Graphical class catalog
- Add rules to define the flow of classes

Learn

- Clean and intuitive design for a delighting learning experience
- Access to class information anytime, everywhere
- Achieve goals through learning paths
- Easily track your progress
