General Education modules revisited, Dr. Vallado writes for AIDE

In pursuance of the ongoing paradigm shift to learning competency – based standards in Philippine higher education and in pursuit of the ongoing education reforms that prompted the revision of the general education curriculum in higher education, AIDE revisited all its modules to conform with the new policies, standards and guidelines (PSGs) issued by CHED.

Specifically, CHED Memo 20 series of 2013 prescribes the new general education curriculum to be implemented by AIDE beginning First Term of School Year 2018-2019.

To be able to update, revise and re-write the old modules of AIDE, content developers were invited to look into the content of existing learning materials. One of those commissioned to write general education sub-

The New Revised General Education Curriculum (GEC)

The new revised general education curriculum was reduced from fifty four (54) units to minimum thirty six (36) units. It is composed of the following subjects:

1. Twenty-four (24) units of core courses;
2. Nine (9) units of elective courses;
3. Three (3) units on the life and works of Rizal (as mandated by law)

Internationalization of higher education is the process of integrating international, intercultural, and global dimensions into the goals, functions (teaching, learning, research, and service), and delivery of higher education; it involves a process of interchange of higher education between nations, with partnerships between nations, between national systems of higher education, and between institutions of higher education.

Transnational Education includes ‘*all types of higher education study programmes, or sets of courses of study, or educational services (including those of distance education) in which the learners are located in a country different from the one where the awarding institution is based.*’ Such programs may belong to the education system of a state different from the state in which it operates, or may operate independently of any national education. It is used interchangeably as cross-boarder education.
