MESSAGE FROM THE EXECUTIVE DIRECTOR

As we come close to ending year 2022, we want to wish all our students, alumni, employees and module writers/faculty, a very Merry Christmas and a Happy New Year!

We were able to end another challenging year and we at AIDE, are hoping that we be blessed with the same courage, strength and enthusiasm as we welcome the year 2023. Wishing for everyone's good health, safety, security and prosperity! Happy Christmas and a Blessed New Year!

- Mrs. Zenaida Villaescusa

AIDE to offer BSBA Operations Management Course in 2023

"Education enables upward socioeconomic mobility and is a key to escaping poverty. Over the past decade, major progress was made towards increasing access to education and school enrollment rates at all levels, particularly for girls. Nevertheless, about 260 million children were still out of school in 2018 — nearly one fifth of the global population in that age group. And more than half of all children and adolescents worldwide are not meeting minimum proficiency standards in reading and mathematics."

—Source: https://unric.org/en/sdg-4/

In the most recent years, we have received various requests to provide additional options on courses from our current and potential students. To start the year 2023 with a positive news, we are informing all our stakeholders that beginning January 2023, AIDE will start admitting students for the course BSBA Operations Management program.

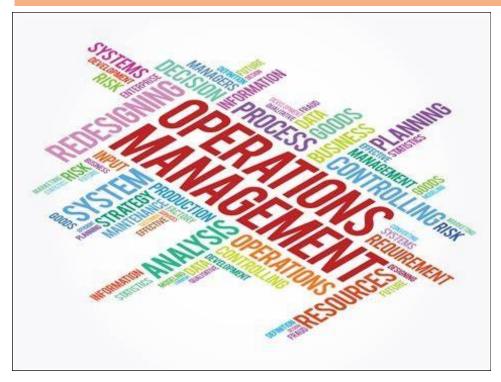

As early as 2018, the Commission on Higher Education (CHED) has provided the necessary government program recognition/permit that allowed AIDE to offer said program along with the other major courses under BSBA., e.g. Marketing Management (MM), Business Economics (BE) and Human Resource Management (HRM).

AIDE to offer BSBA Operations Management Course in 2023

AIDE management has also provided the needed support to all its module writers/developers to make this plan a reality. Hence, the writers are now finalizing the contents of all the Professional Major subjects under the BSBA Operations Management (OM) program using the CHED Memo Order 17 series of 2017 as a guide. It must be noted that AIDE has already prepared the modules on the general education core courses, core business and management education courses, business administration

core courses and all the business elective subjects. The module developers and writers of AIDE will now concentrate on the remaining Professional subjects under OM curriculum. Under the same Memorandum Order, there are 8 major Professional Subjects under OM. These are the following:

- ♦ Environmental Mgnt System
- ♦ Inventory Mgnt. & Control
- Project Management
- Costing and Pricing
- Logistics Management
- Productivity and Quality Tools
- Facilities Management
- Special Topics in Operations Mgnt.

Have a Happy New Year!
