To continue giving you the course description of the subjects under the BSBA Financial Management program, we are publishing in this issue the subject - *Special Topics in Financial Management*.

2. Special Topics in Financial Management

Course Description:

This course will discuss various topics and special issues in financial management. For the first part of the module, students will be exposed to the discussion of derivatives and risk management, multinational financial management, hybrid financing, and mergers and acquisitions which are all important topics in international or multinational financial management. The next part of the Module discusses special topics in financial technology, being the most recent topic and innovation in financial management around the world.

Course Description of the Subjects under the BSBA Financial Management Program

Course Description:

Part of the presentation is a discussion of the evolution of financial technology management, the role of banks and regulators. A paper that discusses the challenges and trends and financial technology will also form part of the second module. Also, some researches on the trends, approaches and management in financial technology will also be included. Finally, the module discusses the case of the Philippines in terms of financial technology. Topics include regulations from the central bank, local digital banking overview, fintech landscape and trust over online banking services in the country.

Course Objectives:

On completion of this course, students will be able to:

- ⇒ Appreciate the various topics in financial management in an international setting.
- ⇒ Understand the importance, evolution, taxonomy and classification of financial technology.
- ⇒ Explain the landscape of Philippine online banking system and financial technology issues and concerns like trust concerns, development, challenges in application, among others.
